LOYAL TO THE PRESIDENT.

American League to Limit Armaments Sends Mr. Wilson Testimonial

NEW YORK, June 14.—The American League to Limit Armaments has sent to President Wilson a composite letter from fifty-eight college presidents, testifying to their loyalty to him in the position he has taken with Germany, and expressing their confidence that he will be able to bring about an adjustment by peaceful means.

Included in the letter is a summary of the messages from the educators entitled "Peace Program for Trying Times," which suggests the immediate establishment at Washington of a league of neutral nations, "which could more forcefully assert our, and all other neutral rights than many army corps and battleships."

The league includes 146 college presidents.

TRUST LAWS ARE ANALYZED.

Old Bureau of Corporations Submits Report to President.

Results of an extensive study of trust laws and unfair competition were submitted to President Wilson today in a report prepared by the old bureau of corporations for its informative value to Congress in enacting legislation. Federal anti-trust laws, judicial decisions and their influences upon forms of business organization are discussed as are the state laws and those of foreign countries.

The chief conclusions of the study are that the development of anti-trust legislation and consequent judicial decisions have been important factors in shaping forms of business organizations, and that interpretations of the Sherman law, especially the more recent decisions, have demonstrated its far-reaching effect. Practically no twilight zone has been left, the report says, which cannot be reached by state or federal law.

Although the Sherman anti-trust law is comprehensive in its scope, says the report, "it is not so clearly established that the judicial decisions afford a basis for proceeding with exactness the lawfulness, or unlawfulness, when taken severally of many particular devices that have been used collectively to control the market. Almost every decision has been based on a complex set of facts and the use of a number of different devices to restrain trade."

"THE LOSEKAM."

Let us tell you why our Crab Meat is so delicious. It is because the crab-taken from Chesapeake bay for us—are steamed (not boiled), and the same day their meat is picked, it is hurried by express service to us, and reaches us early the next morning.

Why are our Salads so edible? It is because all of the things used therein are the purest and the best. We have just closed a contract with Messrs. O. G. Cornwell & Son for the delivery to us of two hundred gallons of the finest imported virgin olive oil. For use in the Losekam Salads, Mayonnaise, etc.
